

Kick-Off Session Climate Culture

Thursday October 5, 2023 14:00 – 16:00 CET

Cultural dimensions of climate change adaptation raise the question of how far climate change-related knowledge and adaptation practices (hereafter 'climate cultures') are globally transferable and applicable.

We are thrilled to invite you to the kick-off meeting of the "Revisiting Climate-Culture: Studying Locally-led Knowledge and Adaptation Practices for Climate Change and Development in Asia." The session will take place on 05 October 2023 and be live-streamed for broader participation. We look forward to your joining us for this exciting event, where we aim to foster collaboration and drive meaningful expertise discussion.

Core team:

Human Geography and Spatial Planning (GEO): **B. Mallick, A. Bailey, M. M. Bayrak**; Copernicus Institute (GEO): **H. Mees, G. Koren**; Department of Cultural Anthropology: **D. Henig**; Department of International and European Law (REBO): **Haomiao Du**
